UNDERSTANDING NATURAL FLAVORS

To download **Understanding Natural Flavors** eBook, make sure you refer to the web link listed below and download the file or gain access to additional information which are highly relevant to UNDERSTANDING NATURAL FLAVORS book.

Book Condition: New. Publisher/Verlag: Springer, Berlin | There has been increasing interest in recent years in the concept and production of natural foods. Advertising claims that food is natural, without additives or artificial ingredients, have taken on great importance in marketing. Consumption of food that can be considered natural is currently central to the sophisticated lifestyle. However, there is only a limited published literature on what constitutes natural food flavours. Much of the flavour and fragrance industry has worked on development of synthetic or ‘nature-identical’ flavours which represent a chemist’s simulation of the natural character. As marketing claims become more strident it is necessary to gain a better understanding of natural food flavours in order to safeguard food quality and for prevention of fraud. There have been great advances recently in analytical chemistry, and partly as a result of this progress there seems to be a never-ending increase in the number of volatile compounds identified in foods. Unfortunately, this has not always been matched by an equal increase in the understanding of how these volatile compounds arise, or how they contribute to the sensation which we call flavour. Throughout the development of Western society, quality of food, particularly flavour, has been highly regarded. The amateur or professional cook with the skills to optimize and maintain standards in flavour has been held in the highest respect. | 1 Predicting acceptability from flavour data.- Abstract.- 1.1 Introduction.- 1.1.1 Procedure considerations.- 1.1.2 Design considerations.- 1.1.3 Analysis considerations.- 1.1.4 Practical considerations.- 1.2 Examples of the multiple regression approach.- 1.2.1 Predicting hedonic values of raw carrot texture from sensory descriptive attributes.- 1.2.2 Predicting hedonic values of cooked rice from sensory descriptive attributes.- 1.2.3 Predicting strawberry jam preference from sensory and analytical variables.- 1.3 Conclusion.- References.- 2 Sensory analysis of flavours.- Abstract.- 2.1 Introduction.- 2.1.1...
