Power-Waters also rips the lid off a runway-full of other air safety shortcomings that endanger the flying public every day, whether aboard a jumbo jet, an air taxi or an ultralight. *Danger in the Air* will make you uneasy and angry, and may drive you to scream for reforms-Alex Michelini, former award-winning Investigative Reporter, New York Daily News; former adjunct at Columbia University Graduate School of Journalism. Captain Power-Waters, drawing on his vast experience in aviation-from both the line Pilots perspective and a very accurate and informed understanding of an Air Traffic Controllers job, brings together facts and information concerning the truth about aviation safety and the failures made by the agency tasked with overseeing it-the FAA. -William A.
